

Environmental Policy

It is the policy of Munns Limited to provide consistently high-quality gas, water, electrical and heating and cooling contracting and maintenance services which fully meet the expectations and needs of our clients whilst meeting regulatory and legislative requirements, thus ensuring complete customer satisfaction.

The management and all who work at Munns Limited are committed to the care of the environment, we seek to minimise waste arisings, prevent pollution, promote recycling and sustainable resource consumption, minimise harmful emissions and, where possible, to work with suppliers who themselves have sound environmental policies. We prepare for abnormal conditions and determine reasonably foreseeable emergency situations and seek to prevent, reduce and mitigate undesired effects (including consequences of united changes and the potential for external environmental conditions affecting us). We determine and proportionately action the risks and opportunities that need to be addressed so our EMS can achieve its intended outcomes.

An essential feature of our environmental management system is a commitment to improving environmental performance. We achieve this by determining our environmental aspects and associated impacts and setting environmental improvement objectives and targets which are regularly monitored, reviewed and integrated into our business processes where possible. The objectives and targets are shared and promoted across the business and all staff are committed to their achievement.

Our Environmental Management System is designed to meet the requirements of ISO14001:2015 and is implemented and maintained by all staff of our company, in combination with our health, safety and quality arrangements. Our integrated processes define and document the responsibility and method for all activities, including response to emergency situations and other matters that may affect the quality and environmental sustainability of the products and services given to our customers.

A copy of this Environmental Policy is available to all staff and other interested parties.

Environmental Policy Statement

It is the policy of Munns Limited to consistently provide services that meet or exceed the expectations of our clients and applicable statutory and regulatory requirements and this is supported using our ISO14001:2015 certified Environmental Management System. The scope of our management system is **Specialist Electrical & Gas Contractors involved in the Maintenance and Installation of Electrical, Gas, Water, Air Conditioning and Alarm System equipment and utility networks.**

Munns Limited further underpins this commitment with a controlled and measured Continual Improvement programme that seeks to; reduce environmental risks; provide prompt responses to any issues as they are encountered; prepare for resolution of any emergency situations; seek to ensure climate change mitigation / adaptation; improve our environmental performance; and enhance client satisfaction whilst promoting sustainable business practices throughout our supply chain.
